

# NEW COMMUNITY PARK OPEN HOUSE

WILDWOOD

In 2011, the City of Wildwood embarked upon a public engagement effort to assess residents' thoughts and opinions concerning development of the 66-acre parcel of ground for use as the City's first Community Park. This property is located near the intersection of State Route 100 and State Route 109 and large enough to accommodate a number of facilities and activities that residents have identified over the years as priorities for future consideration.

This aforementioned effort led to the development of a 'Concept Plan' for this park property. This past July, Oates Associates and Nelson Byrd Woltz were hired to create construction drawings for Phase I of this Community Park, which will ultimately be utilized for bidding purposes. These consultants have been working on this project over the past few months and are seeking the public's input regarding this phase and the elements associated with it. To this end, the City is holding an Open House Session for the community to view the work the consultants have completed to date and provide input on the same. Given your home is located in close proximity to this park property, the City wanted to ensure you were notified of this session.

**THURSDAY, OCTOBER 11, 2012 – 4:00 P.M. TO 7:00 P.M.**  
**WILDWOOD CITY HALL – 183 PLAZA DRIVE**

*The City appreciates your attendance and please bring a friend too!!*
