**Re: Ellisville Superfund Site**

Dear Mr. Williams:

In past discussions, you commented that the U.S. Environmental Protection Agency, in conjunction with the State of Missouri Department of Natural Resources, may consider the delisting of certain sub-sites of the Ellisville Superfund Site in the future. The City of Wildwood remains very concerned with the public health risks that may still remain within the Ellisville Superfund Site at this time, inclusive of each of its sub-sites; therefore, the City of Wildwood strongly opposes any consideration for delisting until such time that the public health risks have been abated, and demands that the U.S. Environmental Protection Agency give not less than one (1) year advance notice to the Cities of Wildwood and Ellisville, before any delisting(s) of the Ellisville Superfund Site are considered.

Sincerely,

**CITY OF WILDWOOD**

Timothy Woerther, Mayor
